PREPARATORY NOTE.

This publication contains the detailed reports from the various Public Institutions in the Province of Alberta for the year 1919, extracted from the Annual Report of the Department of Public Works for the said year.

A. J. McLEAN,
Minister of Public Works.

HOSPITAL FOR THE INSANE

THE HOSPITAL FOR THE INSANE

PONOKA, ALBERTA.

THE HON. A. J. McLEAN,

Minister of Public Works,

Edmonton, Alberta.

SIR,—I have the honour to submit to you the Report for the year ending 1919, being the Ninth Annual Report of the Hospital for the Insane, Ponoka.

On the first day of January, 1919, there were in residence 517 patients, 323 males and 194 females. At the close of the year there were 630 patients, 405 males and 225 females.

During the year 17 men (all soldiers) were transferred to the Hospital for Returned Soldiers, Red Deer, and one soldier and six civilian patients were returned to Ponoka, leaving a total of 101 patients at that institution.

Two feeble-minded children, aged 14 and 15 years respectively, were transferred to the Home for Mentally Defective Children, Edmonton, on July 8th.

The admissions were 204 males and 88 females, a total of 292.

The discharges were 142, as follows:

	Male	Female	Total
Recovered -----	66	32	98
Recovered (Red Deer) -----	1	--	1
Improved -----	17	6	23
Improved (Red Deer) -----	10	--	10
Not Improved -----	4	6	10
Total -----	98	44	142

The above discharges include 11 deportations and 8 transfers to points outside the Province, as follows:

DEPORTATIONS.

	Male	Female	Total
Austria -----	2	--	2
China -----	1	--	1
England -----	1	--	1
Italy -----	1	--	1
Sweden -----	1	--	1
Turkey -----	1	--	1
U. S. A. -----	2	2	4
Total -----	9	2	11

TRANSFERS.

	Male	Female	Total
British Columbia -----	4	--	4
Manitoba -----	1	--	1
Ontario -----	1	--	1
Quebec -----	1	--	1
Saskatchewan -----	1	--	1
Total -----	8	--	8

During the year 81 males (including 6 at Red Deer) and 42 females, a total of 123, were sent out on probation. Of these 4 males (1 to Red Deer) and 1 female were returned.

The recovery-rate, based on the total admissions for the year, is, in the case of the males 32.84 per cent., and in that of the females 36.36 per cent. The recovery-rate, therefore, is for both sexes, 33.90 per cent.

The deaths numbered 44, viz.: 32 males (including 4 at Red Deer) and 12 females.

The death-rate, based on the total number under treatment, is for the males 5.06 per cent. and for the females 4.25 per cent., or for both sexes 4.81 per cent.

The classification of the American Medico-Psychological Association has been adopted, and reference to Table 13, Heading 12, shows that 27 cases of Post-Infectious Psychoses attributed to Influenza were committed to the Hospital. It is an interesting fact that of these, 23 cases (13 males and 10 females) made good recoveries. The remainder (3 males and 1 female) have, so far, shown no definite mental improvement.

Although the war has stimulated public interest and scientific research work in mental diseases, no striking discovery has been made in this field of human endeavour during the year. The war neuroses are better understood and are now regarded as defensive mechanisms in individuals who are unable to adjust themselves in a normal manner to their environment.

The Psychosis Dementia Praecox is being investigated from several angles, but its nature and successful treatment are still unknown, and the majority of cases ultimately pass into a state of profound dementia.

In regard to General Paralysis (a syphilitic disease) there is no consensus of opinion that benefit is obtained by any known method of treatment, and it remains one of the most fatal diseases to which man is subject.

The new Admission Building for male patients was occupied early in September, and has proved very serviceable in the treatment of acute cases.

Another building, planned on somewhat similar lines, to accommodate 100 male patients, and a large dining-room to seat 200 are nearing completion.

A Nurses' Dining-room, conveniently situated near the kitchen, is also nearing completion. In the basement of this building a refrigerator with three compartments is being constructed on modern lines.

In addition to the above the following are the more important constructions and repairs:

Two double cottages for married employees.

A potting shed built on to the west end of the green-house.

The dining-room and adjoining vestibules in the Female Building were re-painted, and the old and worn linoleum replaced by quarry tile.

The floors of 12 single rooms in the same building were tiled with white octagonal tiles, which, from a sanitary standpoint, is much to be preferred to the linoleum heretofore in use.

One male ward on the first floor of the Administrative Building, the kitchen, bake-shop and corridor leading to the Female Building were also re-painted.

The walls behind the wash basins and slop sinks in four wards were tiled to a height of five feet.

Owing to the early onset of winter and a heavy fall of snow, threshing was not completed on the farm, but it is estimated that the crop was an average one.

The potatoes were harvested in good condition, but most of the turnip crop was frozen in the ground.

With the exception of the cabbages and green peas, the vegetable garden was again a failure.

The yearly average net cost per capita is \$272.20.

The daily average net cost per capita is 75c.

In concluding we desire to express our indebtedness to the various Departments for their support and assistance.

I have the honour to be, Sir,

Your obedient servant,

E. H. COOKE,

Medical Superintendent.

TABLE No. 1
Showing the number of Admissions, Discharges, and Deaths during 1919.

Month	Admissions			Discharges			Deaths		
	Male	Female	Total	Male	Female	Total	Male	Female	Total
January	10	6	16	6	--	6	5 (Red Deer)	3	8

THE PROVINCIAL GAOL
LETHBRIDGE

LETHBRIDGE, January 7, 1920.

HON. A. J. McLEAN,
Minister of Public Works,
Edmonton, Alberta.

SIR,—I herewith submit for your perusal and study the Ninth Annual Report of the Provincial Gaol, Lethbridge, with the usual statistical tables.

The average prison population for the past year has been 114.97, showing that we are steadily increasing in numbers.

The general health of the men has been good. We have had no epidemic of sickness this year, for which we are thankful.

We are sorry to have to report another very dry year with short crop returns as a result. We used all the irrigation water we could get and distributed it as widely as possible on our growing crops and saved as much as possible. We had good yields considering the drought. Our potato crop especially gave promise of being an unusually good yield—a real revenue producer—but unfortunately for us a very early killing frost came and destroyed this splendid crop, before we could get it dug.

We were not able to get any fall plowing done this year on account of the very early freeze up. The early winter has been hard on our stock and has required more feed than usual to keep them in good condition.

It is becoming increasingly difficult to carry on the work at this institution, due to two or more causes (1) the ever increasing cost of everything required here—clothing, boots, flour, sugar, etc.—and having a crop failure we have had little to sell and practically no income to counterbalance the increased cost of every item of expenditure—hence the greatly increased cost per capita this year; and (2) the ceaseless changing of the staff—on account of higher wages paid elsewhere. The whole salary scale needs an upward revision to attract the best possible type of men to fill positions on our staff and to keep them here, for they become much more valuable and useful the longer they remain.

During the war we did as little repair work as possible, but now we will be forced to do considerable of this, which will mean increased expenditure. Fences must be overhauled and rebuilt, buildings must be repaired and repainted, as it will be false economy to delay this necessary work any longer. You will note that we made a start this year and that repairs to the power house roofs, etc., have cost over \$4,000.00.

I thank you for your continued interest in and valuable assistance to us in conducting the work at this institution. Your staff has ever been obliging and courteous and ready to assist us at all times, and our hearty thanks is tendered you all for this support.

We go forward into the New Year with faith and courage.

Your obedient servant,

J. H. RIVERS,
Warden.

PRISONER-POPULATION, 1919.

THE PROVINCIAL GAOL
FORT SASKATCHEWAN

FORT SASKATCHEWAN, January 10, 1920.

THE HON. A. J. McLEAN,
Minister of Public Works,
Edmonton.

SIR,—I have the honour to submit herewith my Sixth Annual Report of the Fort Saskatchewan Provincial Gaol for the year ending December 31st, 1919, together with the financial report and the statistics of the gaol population. The daily average population for the past year was 126.5, an increase over 1918 of 25.1, due in part to the transferring of prisoners from as far south as Calgary to this place.

I greatly regret to have to report the death of one prisoner, one was hanged and two escaped.

Our building operations were small this year, and were confined to building an addition to the Women's Gaol of a work-room and dormitory, 30x40, 2 stories. This was greatly needed as we were cramped for quarters to work in.

We also built a chop-house for our feed-grinding and cutting box. This was connected to our cow barn and has proved to be very convenient. We also built an addition to our hog house, and a smoke house.

Our farming operations were most successful this year. We broke 20 acres more land on the south farm, and hope to have all land on the west side of road in cultivation this spring. The wheat, oats, barley and pea crops were average, but our vegetables were not up to the standard this year owing to the dry year, and the early frost of October 12th, by which we lost 10 acres of potatoes. This was unavoidable, as I did not expect winter to start so early. However, our cellars are full of roots and vegetables, and I hope to have some to sell besides what we will require for our own use.

You will note that we have again reduced our annual per capita cost from \$253.99 in 1918 to \$251.49 for this year. While this may seem like a trifling sum, yet when you consider that several thousand dollars has been added to our salary account, and the price of almost every article used in the maintenance of the institution has advanced, it shows that rigid economy has been practised throughout.

The revenue received has increased from \$11,718.10 in 1918 to \$17,153.36, which I consider to be most gratifying.

In conclusion I beg to thank you for the interest you have taken in the institution and for the courtesies extended to us by yourself and the members of your staff.

I have the honour to be, Sir,

Your obedient servant,

HARRY A. DRIGGS,

Warden.

HOSPITAL FOR RETURNED SOLDIERS

RED DEER, January 2, 1920.

HONOURABLE A. J. McLEAN,
Minister of Public Works,
Edmonton, Alta.

SIR,—I have the honour to submit for your consideration the Annual Report for the year 1919, being the Second Annual Report of the Hospital for Returned Soldiers, Red Deer. The usual statistical tables are included.

On January 1st, 1919, there were 105 male patients in residence. During the year there were 18 male admittances and 22 male disposals, leaving a total of 101 patients in the Hospital. Details will be found in schedule attached.

The health of the patients throughout the year has been very gratifying.

Throughout the year many incidental repairs, improvements and conveniences have been added to the interior of the building.

The artistic effect of the grounds has been much improved by the addition of gravelled roads, evergreen and caragana hedges, bowling green, tennis court and boulevarding.

In addition to the work confined to the farm, details of which will be found in schedule attached, the gardener with the assistance of patients has completed the following: (a) 925 feet of hedging, approximately 3,000 plants; (b) flower beds, 850 square feet; (c) levelling and grading 17,000 square feet boulevards; (d) terracing and levelling $1\frac{1}{2}$ acres; (e) hauling of 40 loads of gravel and 450 tons of fertilizer; (f) finishing park coulee. As supplement to the above may be added the following construction: (a) three court standard bowling green; (b) double cinder tennis court; (c) green house, 10 ft. x 30 ft.; (d) summer house; (e) cement paving, 360 square ft.; (f) cartage of 5 cars of coal; (g) laying 720 feet of underground lawn service pipe; (h) erection of a 63 ft. flag pole; (i) steam line to garage; (j) six gates.

The average number of patients in residence, 101, staff, 19, total 120.

Total yearly cost per capita, \$313.83.

Total cost per capita per diem, \$0.8598.

Total cost subsistence per capita per diem, 29.12c.

In conclusion the staff wish to convey to the various departments their sincere thanks for the support and assistance rendered.

I have the honour to be, Sir,

Your obedient servant,

D. L. DICK,
Medical Superintendent.
